Additional information regarding attempted service, etc.:

I attempted multiple gates on 1/5/2024 between 4:30 pm and 5:06 pm. One gate requires a pass for the gate to open and is a private entry, the other gate is the main entrance and requires a pass or visitors pass and vetting. Security is not required to confirm if a certain resident lives on the property and it is unknown if they actually call to confirm. Either way, if a resident is notified by security that someone is trying to gain entry to the property, that resident has the right to allow or deny access.

I also attempted on 1/8/2024 between 8:00 am and 8:45 am. Same information, no access granted as the gated community is a protected private property. Without permission or being properly vetted, I cannot enter the property. I believe law enforcement would have no issue getting onto the property. You may have to reach out to the Moore County Sheriff's Office and/or request an "alternative service request" if allowed (varies per state).
